Atikur Rahaman Khan

CSE Undergraduate | Aspiring Full-Stack Developer | Dhaka, Bangladesh

atikurrahmankhan1610@gmail.com | github.com/atik1610

PROFILE

Computer Science and Engineering undergraduate at Daffodil International University with a strong interest in frontend, backend, API development, and algorithms. Learning through independent software projects and hands-on problem solving.

EDUCATION

Daffodil International University - B.Sc. in Computer Science and Engineering (Ongoing; began 2025)

Higher Secondary Certificate (HSC), 2024 | Secondary School Certificate (SSC), 2022

TECHNICAL SKILLS

Programming: C, C++, Python, JavaScript, TypeScript

Frontend: HTML5, CSS3, React | Backend: FastAPI, REST API concepts

Databases: MySQL, MongoDB | Currently learning: Java, Next.js, Django, Pandas

SELECTED PROJECTS

BookNook | Full-Stack / Web

A Next.js online library project with a separate Express API and MongoDB, exploring book browsing, accounts, and borrowing flows.

Expense Tracker API | Backend / Rest Api

A FastAPI backend practice project with organized authentication and transaction routes.

Student API | Backend / Learning

A learning API for student data, path/query parameters, filtering, and HTTP error handling.

TerraAnalog | Space / Data Project

A NASA Space Apps Challenge research prototype processing MODIS temperature data with Python and mapping tools.

INTERESTS

Algorithms and data structures, modern software development, learning new technologies, and story-driven games.
